

Application for
An
Identification Passport for a Horse/Pony
To meet the requirement for EU Regulation 2015/262

Requirements for completion of the Application for an Equine Passport have changed

The basic details a) and written description b) must now be completed in full.

Whorls and markings must be shown on the silhouette diagram. The silhouette page can be completed, by the applicant but must then be signed and stamped by your Veterinary Surgeon to confirm that the written identification matches the horse/pony and to verify the Microchip reading.

Where a new microchip is inserted the bar code strip which accompanies the microchip should be stuck along the boxes below the silhouette; where an existing microchip is detected the reading should be written in clearly, using a black pen.

This application form is designed to allow the Donkey Breed Society to record mandatory data prior to the issue of a passport, and may be used to apply for a passport for a horse/pony of any age, without known breeding.

The data collected will be held on behalf of Defra to fulfil our legal obligation under the Passport Regulation EU 2015/262

The passport must be applied for by the owner of the horse/pony, which may not be sold until the passport has been issued. After the sale has taken place, the passport must be handed to the new owner who must then complete the transfer form, and return the passport, form and transfer fee to the address below.

NB: Where this application is for a horse/pony being identified prior to a passport being issued outside the statutory juvenile time limit the passport will be signed out of the Human Food Chain by the DBS Passport Administrator at the time of issue, and the passport marked as a Replacement. The time limit for application being within 6 months of birth or before the 31st December of the year of birth, whichever comes later.

Passport Issuing Authority :- **The Donkey Breed Society**

Please return Applications to:

The Passport Administrator
Bryncelyn
Llanfyllin

I am a Veterinary Surgeon and confirm that in accordance with European Commission (EU) 2015/262, I have

- a) Implanted a microchip and marked its location 'V' on the diagram
- b) Detected a pre-existing microchip transmitting the electronic code given.
- c) I confirm that the written description identifies this Equine correctly.

Practice Stamp

Vet Signature: Date:

Disclosure for General Data Protection Regulation 2018

There is a mandatory requirement that some horse passport based information about horse and owner must be passed to a Central Equine Database - Passport Identification Number, names of horse, date of registration, date or year of birth, date or year of death, breed, sex, colour, owner details (title; first Name; last Name; address; postcode), country of birth, date of passport issue. The information is collected in order to provide a source of data that supports Defra's veterinary disease control and surveillance activities. The information will also enable Defra to carry out its responsibilities regarding the implementation of the horse passport legislation requirement. EU 2015/262

The Donkey Breed Society will hold personal data securely for as long as we are legally required to do so, it is not shared with anyone except for society publication mailing purposes and is never sold.

Checklist and declaration Signing and dating of this page are mandatory

If your form is incomplete or contradictory, it will be returned to you for amendment and you will be subject to any 'correction' fees in force at the time of submission.

1. Have you completed ALL sections of this form in legible block capitals?
2. Including date or year of birth and height; in the case of foals an estimated height at maturity is accepted.
3. Has your vet added the microchip reading to the application form above the silhouette and signed and verified the description ?
4. Your payment -
 - Passport fee for a horse/pony belonging to a member or non-member is £25
 - Is your cheque for the correct amount? is it signed and is it made payable to the Donkey Breed Society?
 - Alternatively you may pay using a Credit or by Bank Transfer as indicated below.
